Re: TRS Fund - Drastic VRS Rate Cuts

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Dear Sir:

I want to share with you about "VRS" now.

Many, many deaf people really love to call on VP & VRS with the deaf friends & hearing people & families.

Also, the many deaf people said that is very good when they are calling the dentists & Doctors on VRS easy to relay fast & asks them about their health & medications & blood work & running tests, so the dentists & Doctors are happy to explain these to the deaf people to make them understanding clearly what these mean. That is very important!! when they are calling and

VRS. Please keep VRS!!

the deaf people really love VRS better than TDD. Honest

Thank you!

Yours Sincerely,
Gustavia Wharton

To whom it may be concerned:

I am asking for your continuing funding for the Video Relay Service.

It is very important for all deaf and hard of hearing to have this Video relay service so that we can have the communication support with the outside hearing world and to be able to function within the outside world of communication among the hearing people.

Thanks for your concern.

Sincerely yours,

William N. Bush
